All rings come in Women's sizes: 5 to 8 and in Men's sizes: 8 to 12. Smaller and larger sizes than those mentioned can be furnished to you without extra cost, but you must be sure and allow an extra ten days for delivery.

WEDDING RINGS—All wedding rings will be hand engraved with the initials of both the bride and groom and the wedding date, at no extra charge. PLEASE PRINT INITIALS AND THE WEDDING DATE on your order blank.

STATE RING SIZE—Be sure to read the measuring instructions given above.

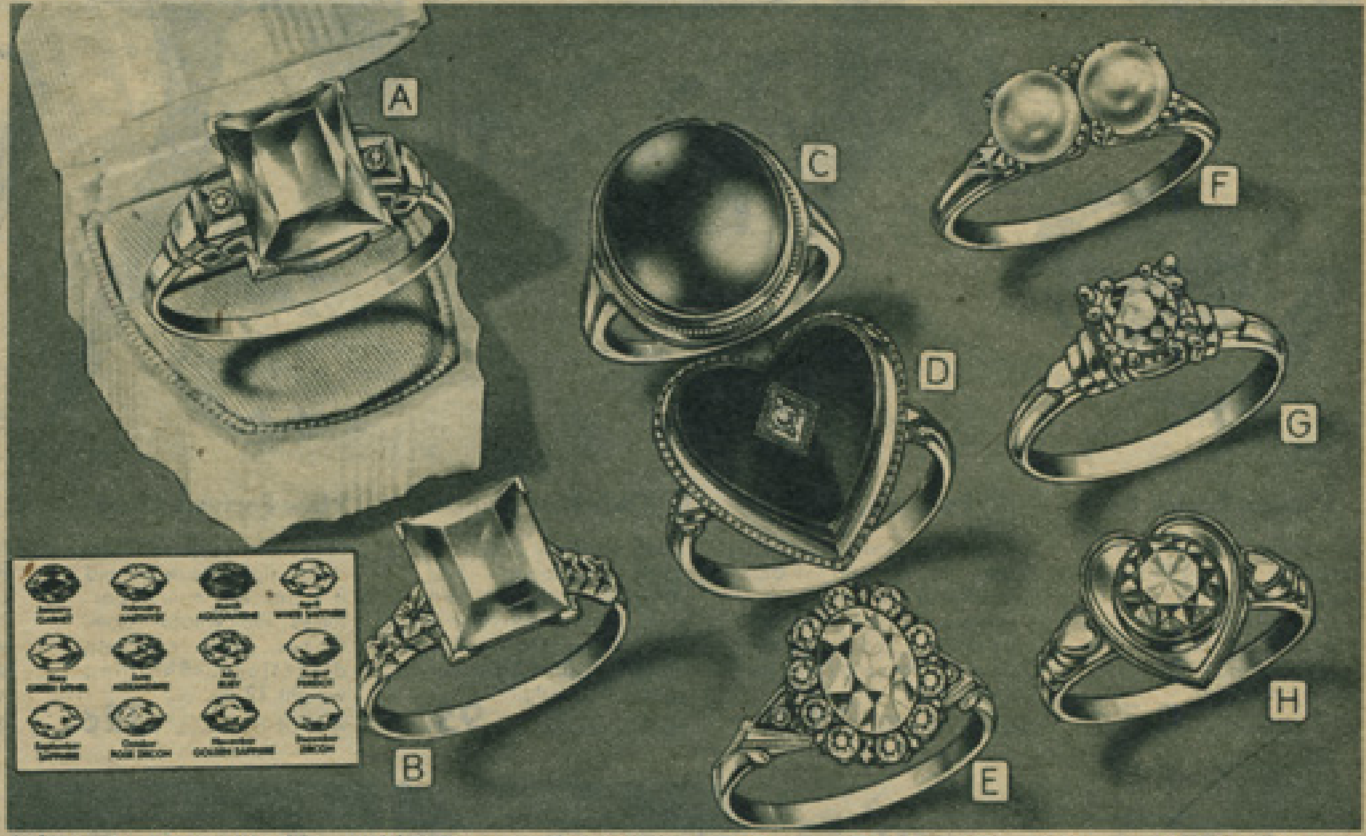

HOW TO MEASURE FOR RINGS

Method A: Cut a piece of cardboard in a long narrow triangle, similar to the triangle shown at the left, but wider. Then take a ring that fits your finger and drop the ring over the smaller end of the triangle. Now draw a line across the cardboard exactly where the ring stops. Please be sure to send this cardboard with your order and we will send you a ring to fit you perfectly.

Method B: Take a small piece of paper and wrap it around the largest joint of the finger on which the ring is to be worn. Cut paper so ends will meet at exact size. Place paper strip on chart below with one end at point "A," and the other end will indicate your ring size on chart. Measure carefully and be sure to state the correct size on your order. Do not use string to measure as string may stretch and the ring size will be too large.

Lowest Cash Prices With Every Spiegel Price Under Ceiling

Warm, Double-Woven, Reversible Pastel Blankets—of 5% Wool

3 for 7.98

The perfect family gift for Christmas, and priced far below what you'd expect to pay for such fine quality blankets. Woven of 5% warm, new virgin Wool yarns, with the balance select American grown Cotton yarns—a very practical combination.

Double woven by the famous Beauty-Nap core yarn method which puts the wool in the nap for warmth and the cotton blend in the underweave to assure greatest strength. The soft-textured finish is produced by 14 separate slow brushing processes, creating many tiny air cells to retain body heat. These blankets will stay soft and warm, even after repeated washings . . . a point important to the careful homemaker. A smart finish is given by the 3-inch Sateen bindings, which harmonize with the clear pastel colors of the blankets. Size: 72 x 84 inches. Weight: 2¾ pounds each. Colors: Blue-and-Rose; Rose-and-Green; or Cedar-and-Peach. Please state your color choice. 61F5S 1162. Set of 3. Shpg. wt. 9 lbs. . . $7.98

Artistic scroll stitching.

HERE'S ALL YOU NEED DO

1. Give Complete Information

Print or write plainly your full name and complete address. Then list the merchandise you want us to send you.

Sizes and colors are important! Be sure to state them where necessary, in addition to telling us the catalog number, quantity, name of article, pattern, finish and price. (To get the best service, all members of your household should order under one name.)

2. Include Parcel Post Charges When Ordering for Cash

The required PARCEL POST charges must be included in money orders or checks sent with cash orders. To get the amount of these charges, list in the column provided on your order blank the shipping weights as given on each item in the catalog description. Then add up the weights and change ounces to full pounds (16 oz. to 1 lb.) and find the parcel post rate in table on opposite page. Be careful not to include with parcel post items the weights of any items to be shipped by express or freight. Weights and rates of *each type of shipment* must be figured separately.

Some items (which would seem ordinarily mailable) are listed in our catalog as "not mailable" because of excess size or other postal restrictions. Figure these items to be shipped by freight or express.

The only time you have to figure and send us the freight charges is when there is no agent in your town *and* you are ordering for cash. Page 77 explains about freight charges.

3. On Cash Orders Enclose Money and Mail

Enclose required amount of money, with your order, seal the envelope, stamp and drop it in the mail. All remittances should be in the form of either a money order or check. If you enclose coin or currency, you should always register your letter.

HOW TO FIGURE PARCEL POST CHARGES

You Pay Charges Only From Spiegel Shipping Point Nearest You

Parcel Post is Best for Light, Mailable Packages weighing up to 40 or 50 pounds. However, packages weighing up to 70 pounds, and of limited size, can be sent by parcel post in all postal zones. Explosives, inflammable articles and poisons cannot be sent by parcel post, with the exception of germicides, insecticides and fungicides, which are permitted.

Include Enough Money for Postage, if you want your goods shipped by parcel post. Don't hesitate to send too much as any over-payment will be refunded.

Pay Postage on Total Weight. As you write your order, note the shipping weight of each item as stated in its description and enter the shipping weights in the last two columns on the right of the order blank. Be sure to list pounds in one column and ounces in the other. Then, after adding, change the ounces to pounds (16 ounces to a pound). Show the total weight of parcel post items in pounds.

Always remember that on packages weighing *over one pound*, the postoffice counts a fraction of a pound as a full pound and charges postage accordingly. For example, if the total weight of your order is 7 pounds and 1 ounce, the postoffice charges the parcel post rate for 8 full pounds. Therefore, you could include additional articles weighing 15 ounces without having to pay one cent more for postage. It means extra savings for you when you build up your order to full pounds.

Refer to the Parcel Post Table at Left for the correct amount to include for postage. In the first column of the Parcel Post table, find the total shipping weight of your order. Follow through to the right to determine the parcel post charge required according to the zone you live in from your nearest Spiegel shipping point.

For example, suppose you live in Troy, Alabama and plan to send a 27-pound parcel post order to Spiegels and your nearest Spiegel shipping point is Birmingham, Alabama. Since Troy is about 135 miles from Birmingham, you would pay Zone 1-and-2 rates.

So, turning to the Parcel Post Rate table, you simply look down the first column of weights until you come to 27 pounds. Then follow over to the right to the Zone 1-and-2 column and you find that the postage on 27 pounds is just 37c.

POSTOFFICE MONEY ORDER CHARGES

The postoffice makes the following charges for Money Orders, regardless of where they are purchased.

Amount	Charge	Amount	Charge
Up to $2.50	6c	$20.01 to $40.00	15c
$2.51 to 5.00	8c	40.01 to 60.00	18c
5.01 to 10.00	11c	60.01 to 80.00	20c
10.01 to 20.00	13c	80.01 to 100.00	22c

For amounts above $100, purchase additional Money Orders at the same charges as shown above.

If you want your order mailed Special Delivery, mark it "Special Delivery Mail" and allow the following charges in addition to regular parcel post charges.

Up to 2 pounds.............15c

Over 2 pounds to 10 pounds....25c

You Pay Only the Charge From the Point Nearest You

There is no need to figure freight or express charges as they are collected by your local agent at time of delivery. Of course, in those few cases where there is no agent in the town, and you are ordering for cash, you will have to include your freight charges with your order.

Here's How to Estimate EXPRESS CHARGES

To estimate express charges, see the table at the right. It's very simple to use. Simply find the weight of your shipment in the first column. Then look in the columns at the right to determine the express charge required according to the distance.

Example: Suppose your order weighs 25 pounds and you live 190 miles from the shipping point. You would use the 200-mile rate to find the approximate charge. The table at the right shows that 74c would be the estimated charge. If the shipment weighs 200 pounds, the charge would be twice the 100-pound rate of $2.25, or $4.50.

Here's How to Estimate FREIGHT CHARGES

BUILD UP YOUR FREIGHT SHIPMENT TO 100 POUNDS. The minimum charge for any rail freight shipment is the rate for 100 pounds, *but it is never less than 58 cents.* Minimum charge by truck may in some instances slightly exceed the hundred-pound rail rate. Charges on shipments over 100 pounds, however, are based on actual weight. If your order weighs less than 100 pounds, it will be to your advantage to order future needs and build your order up to 100 pounds.

On freight orders of 100 pounds or less, made up of several articles taking different freight rates, the highest rate applies to the entire shipment.

Suppose you are ordering a mattress weighing 50 lbs. and 40 lbs. of oil, making a total of 90 lbs. to be shipped 100 miles. The table at the right tells you that the rate for a mattress is 64c for 100 lbs., or 32c for 50 lbs.; and the rate for oil is 46c for 100 lbs., or 18c for 40 lbs. Adding the two charges together would make a total of 50c. However, because the minimum freight charge is the rate for 100 lbs. of the highest rated article in the shipment, the freight charge on this order would be 64c.

Some heavy articles are shipped direct from factory to save handling charges. In such cases, the catalog description gives the point of shipment. Items shipped from the factory may be ordered along with other catalog items, but shipping charges on factory items must always be figured separately.

Spiegels Lower Shipping Charges policy applies to freight orders, too. Freight orders are shipped from Spiegels seven shipping points. Except in the case of factory shipments, you pay only the low freight rate from the Spiegel shipping point nearest your home. Figure your freight charges by using the simple table at the right.

FREIGHT CHARGES ARE BASED ON THE ACTUAL DISTANCE THE SHIPMENT IS HAULED. The distance to use in estimating your freight charges is the distance from your home to the shipping point nearest you—except for factory shipments in which case you use the distance from your home to the factory.

The rates shown in the table are, of course, only estimated charges for the distances indicated. If you want to know the exact charge, ask your freight agent.

If there is no freight agent in your town and you are ordering for cash, use the table to estimate how much money to include for freight charges. Don't be afraid of sending too much money. Any over-payment will be refunded promptly—to the penny.

To estimate the freight on your order, simply find the article you are ordering in the list below. Then refer to the columns at the right of the article to determine the freight charges required according to the shipping distance.

Example: Suppose you live in Harrisburg, Pa. and want to order furniture weighing 100 pounds. Your nearest shipping point is Pittsburgh, Pa.—about 200 miles away. The rate table below shows the 200-mile freight rate for 100 pounds of furniture to be 88 cents.

NO DOWN PAYMENT REQUIRED ON ANY ITEM SELLING FOR $6.00 OR LESS

READ CAREFULLY ABOUT MONTHLY PAYMENTS

Government Regulations require Monthly Payment of at least $5.00 when you buy on time payments, regardless of size of order. There are just a few simple steps to find out what your Monthly Payment will be under any circumstances and for any size order.

IF YOU HAVE NO BALANCE FROM A FORMER PURCHASE:

1st—Deduct from total of your new order the Down Payments required (if any). Then add 10% of this amount for carrying charges, which gives the TOTAL BALANCE you owe for your new order.

2nd—Refer to Table of Monthly Payments below to find proper Monthly Payment on this TOTAL BALANCE.

IF YOU HAVE A BALANCE FROM A FORMER PURCHASE:

1st—Deduct from total of your new order the Down Payment required (if any). Then add 10% for carrying charges, which gives the NET AMOUNT owed for your new order.

2nd—Add the NET AMOUNT for your new order to the OLD BALANCE from former purchases, which will be your new TOTAL BALANCE owed at Spiegels.

3rd—Refer to Table of Monthly Payments below to find proper Monthly Payment on your new TOTAL BALANCE.

TABLE OF MONTHLY PAYMENTS

PLAN TO BUY COMPLETELY

Under any circumstances, credit balances can be brought up to as much as $60.00 without paying more than $5.00 a month—with twelve months to pay.

This shows the advantage of buying your everyday needs sensibly and completely—while keeping your Monthly Payments as low as possible.

ABOUT PARCEL-POST CHARGES
